In this review, I will go through all the pros and cons of playing roblox, as well as what makes some games better than others in terms of what they offer to their users. Friends. roblox is relatively popular due to it's vast user base, which can be accomplished through the group chat feature that is built in to the game. This feature allows users to communicate with each other, create groups and share things such as games, locations and others. It also allows users to see what their friends are up to in the game. The cross-platform ability of being able to play on tablet or phone means that roblox works very well on mobile devices as well as older computers that do not have much processing power or graphics prowess - whether you're playing on Android, windows 10 or a Mac running OSX.

People may think that Roblox is a very childish game but in reality it is not. I have seen many adults playing this game, and I believe that they just maybe started in the past few years. The reason why people say Roblox is a child's game is because it has some pretty high minded themes in the games you can play. For example being able to make your own avatar or being able to decorate your own house, these are things that at first glance seems like something you'd do with your friends or family. Of course these are just things to make players feel good about themselves. But really the game is not about anything but just making a character and having fun.
